

## Indramat Motors - MHD Synchronous Motors

### MHD090B-035-PP0-UN

**In-Stock, Ships 1-2 Days**

- ✓ Free Ground Shipping
- ✓ 1 Year Warranty Included
- ✓ Expedited Lead Times on Select Parts

The Bosch Rexroth Indramat MHD090B-035-PP0-UN belongs to the MHD Synchronous Motors and uses liquid cooling. It delivers 12.0 Nm continuous torque and features digital servo feedback with integrated encoder. Power and feedback connectors are turnable through 270° and position detection is absolute over 4096 revolutions.

## Technical Specifications

| Centering diameter            | Continuous Torque at Standstill | Encoder Type                                 |
|-------------------------------|---------------------------------|----------------------------------------------|
| 110 mm                        | 12.0 Nm                         | Digital servo feedback w/ integrated encoder |
| Flange size                   | Holding Brake                   | Housing Cooling Type                         |
| 140 mm                        | Without holding brake           | Liquid cooling                               |
| Motor Length                  | Motor Size                      | Power Connection Direction                   |
| B                             | 090                             | turnable within a range of 270°              |
| Power Connection Type         | Product Type                    | Shaft Design                                 |
| Power and feedback connectors | Servo Motor                     | Keyed Shaft                                  |
