

## Indramat Motors - MKD Synchronous Motors

### MKD112B-024-GG0-BN

**In-Stock, Ships 3-5 Days**

- ✓ Free Ground Shipping
- ✓ 1 Year Warranty Included
- ✓ Expedited Lead Times on Select Parts

The MKD112B-024-GG0-BN is a synchronous servo motor by Bosch Rexroth Indramat from the MKD Synchronous Motors series. It features resolver feedback (RSF) encoder for relative position detection, a plain shaft with seal, and delivers 28.0 Nm continuous torque at standstill. Cooled via radial or standard methods, IP65 protected, size 112 with 192 mm flange, side B connection, 50 A current, operates ... [Read More](#)

## Technical Specifications

| Centering diameter              | Connection Direction    | Connection Type  |
|---------------------------------|-------------------------|------------------|
| 130 mm                          | Side B                  | Output connector |
| Continuous Torque at Standstill | Encoder Type            | Flange size      |
| 28.0 Nm                         | Resolver feedback (RSF) | 192 mm           |
| Holding Brake                   | Motor Length            | Motor Size       |
| Without holding brake           | B                       | 112              |
| Position Detection              | Product type            | Shaft Design     |
| Relative                        | Servo Motor             | Plain shaft      |
